

SEAT ORGANISER

a product of **INLAND**
AUSTRALIA PTY LIMITED

Great for Storing: Bottles, Kids items, Maps, Handheld Radios, Tools, Recovery Gear, First Aid Gear, and more!

About The Wetseat Seat Organiser

Keeping all your 4x4 accessories and/or general 'bits n pieces' securely located within your car makes perfect sense, both from an ease of access point and more importantly from a safety aspect. The Wetseat Organiser provides the solution!

Offering 12 individual pockets, plus a tablet holder and integrated mesh bag, just like our Wetseat seat covers we have you covered!

The Wetseat Organiser isn't just designed to keep 4x4 accessories organised however, it is also perfect for baby items such as wipes, talcum powder, tissues, creams etc. Or perhaps you just have Hot Wheels cars or other toys rolling around on the floor driving you mad every time you turn a corner? The Wetseat Organiser will easily house these items and many more!

Designed to be easily attached and removed within seconds from either the front or back of your seats, it is the perfect storage solution for your vehicle. Designed to be tough, yet light weight, with an internal frame that prevents sagging & distortion even when full, the Wetseat Organiser is the perfect travel companion.

The Wetseat neoprene seat cover is a wet suit for your car seats. These innovative covers are designed for fitting onto all passenger vehicles. Catering for all seat types, whether it is a 4x4, ute or the family wagon, The Wetseat is a versatile cover designed for the Australian way of life. The Wetseat is:

- UV Safe, Won't fade in the sunny Australian conditions
 - Water Resistant, Perfect for the beach, water sports, water crossings, fishing, camping, touring and more!
 - Dust, Dirt, Sand & Mud Resistant, won't let any containment seep through to your seat keeping your seats clean & dry!
 - Superior Comfort & Aesthetically Appealing
 - Chemical and Abrasion Resistant
 - Non Soiling and Non Static, Simple removal of dust and pet hair
- Australia's most trusted neoprene seat cover since 2007.

Our mission is to provide locally developed, OEM quality products and services to our customers, driven by continuous improvement, innovation and research and development.

Setting up your Wetseat Seat Organiser

1. Locate short (top) rod and long (bottom) rod (Fig.1)
2. Insert the rods into the top & bottom binding (Fig.2)

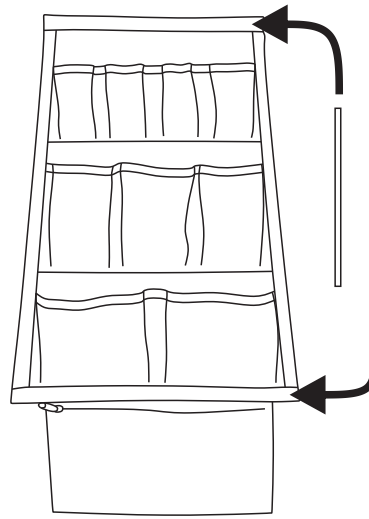

Fig.1

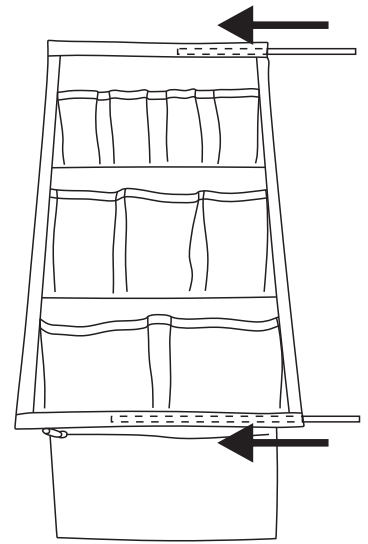

Fig.2

Using your tablet holder

3. Flip tablet holder up (Fig.3)
4. Remove flat rods from back (Fig.4)
5. Re-attach flat rods onto back of the Wetseat Seat Organiser and tablet holder (Fig.5)
6. These flat rods hold the tablet holder upright and help rest it against the front headrest (Fig.6)

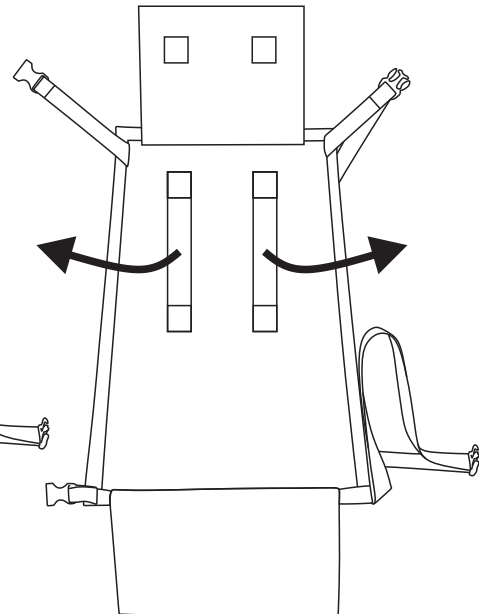

Fig.4

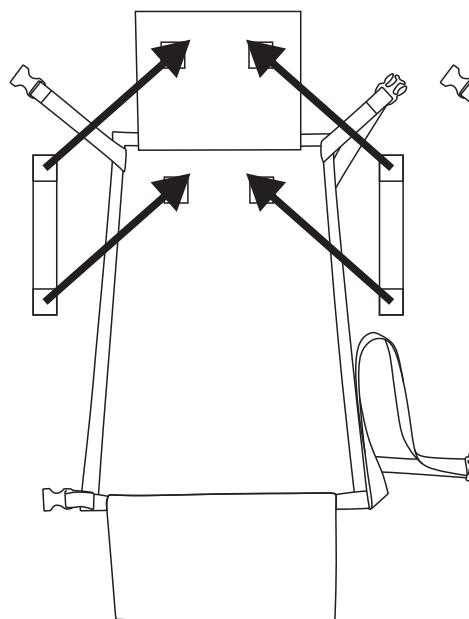

Fig.5

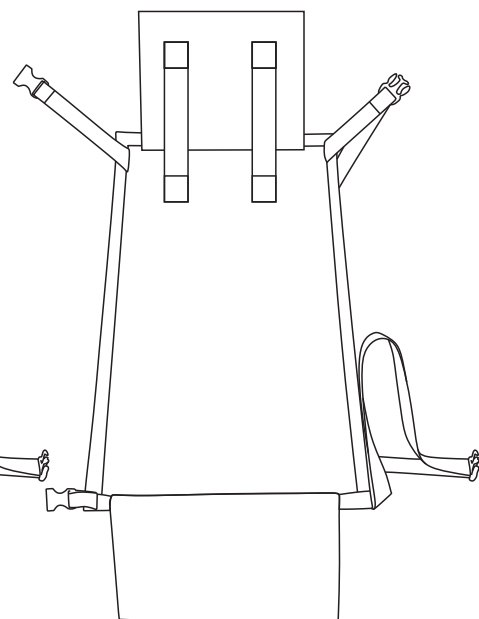

Fig.6

Fitting your Wetseat Seat Organiser to the back of the front seat

7. Release flap under the seat if applicable (Fig.7)
8. Lift front seat headrest up
Pass straps around the headrest prongs
Attach clip and pull strap to tighten (Fig.8)

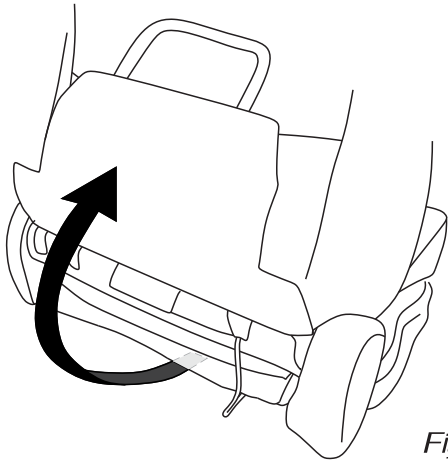

Fig.7

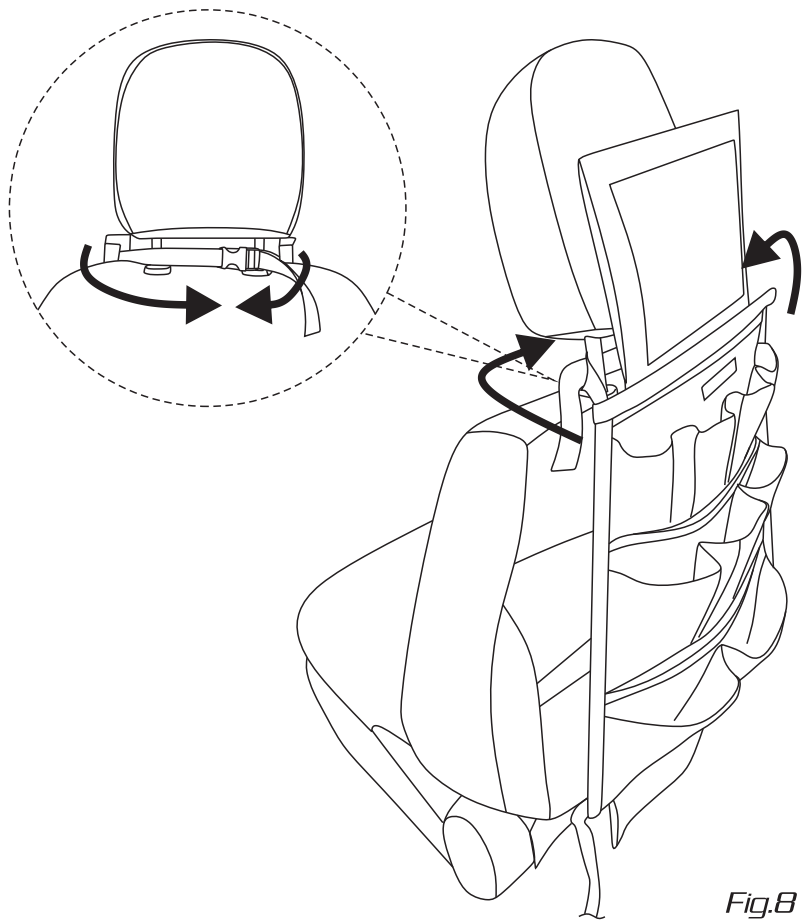

Fig.8

9. Pass bottom straps under the flap and attach clip. Pull strap and tighten (Fig.9)
10. Ensure the strap is tight to eliminate any movement.
Tuck long end of strap away under flap.
Re-attach flap under the seat (Fig.10)

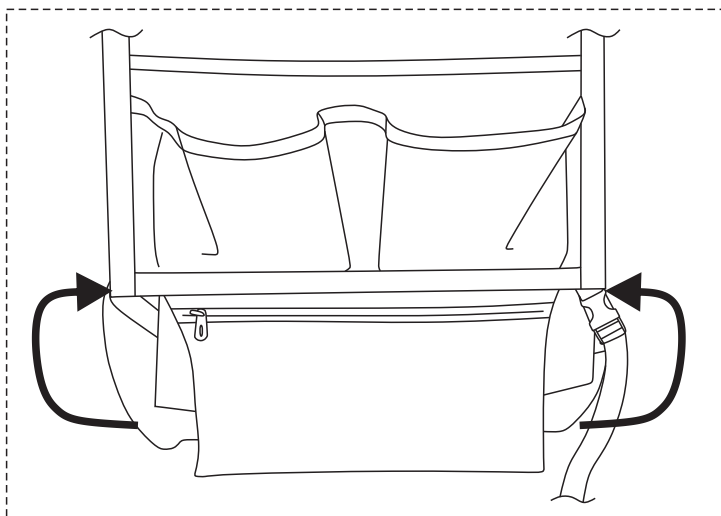

Fig.9

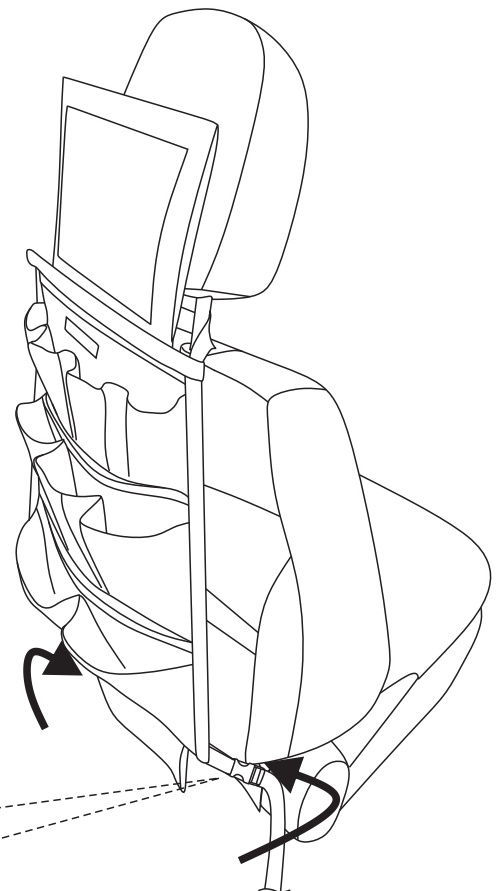

Fig.10

Fitting your Wetseat Cambuckle Strap

11. If additional support for tablet holder is required (applies to some vehicle headrest designs),
Locate your Wetseat Cambuckle Strap (sold separately) (Fig.11)
12. Pass the Wetseat Cambuckle Strap between the seat headrest and the flat rods attached to the back of the tablet holder. This will aid in stabilising the tablet holder on bumpy trips (Fig.12)

Fig.11

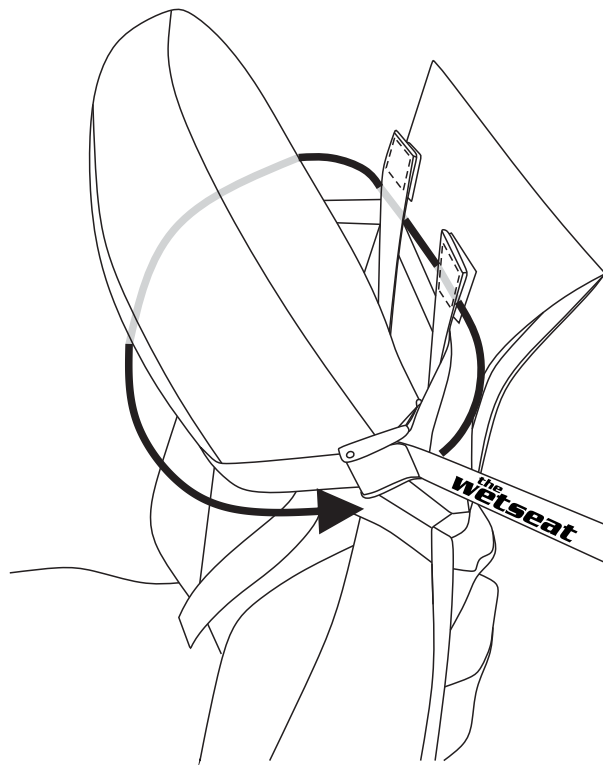

Fig.12

This completes the installation of your Wetseat Seat Organiser

Alternate installation methods:

- Fit to the front of the Passenger seat for quick access from the Driver's seat
- Fit behind a cargo barrier or inside a canopy
- Hang up in your garage for easy access to your everyday tools
